PLAN OF THE NEW TOMBS.

BUILDING TO BE OF GRANITE, NOT FREESTONE AND BRICK.

Main Portal Altered so as to Be Massive and Oranto - Cost of the Necessary Filing Caunot Be Estimated - Borings 115 Feet Down Fall to Find Bottom.

Architects Withers and Dickson, who have drawn the plans for the new Tombs prison, submitted their plans to the Board of Estimate yesterday. This is the second time the plans have been before the Board. They have been passed by the Prison Board with one or two minor changes. The present Tombs is built entirely on piles, and the problem of driving a sufficient number for the new building is a difficult one. Architect Withers said no ap-proximate estimate as to the number or cost of the piles necessary could be made until they are actually driven. Consulting Architect George B. Post explained that the sustaining power of each pile could not be computed until it was driven. He astonished the Board when he declared that after boring 115 feet below the

deciared that after boring 115 feet below the street they had still failed to find bottom. He was of the opinion, however, that piling would be quite safe.

"There is no danger of the building sinking out of sight?" queried Mr. Fitch.

"None whatever: the only other foundation possible would be a raft. The building could be built upon one, but I think the piles will do," answered Mr. Post.

The plans were then taken up and considered at length. Instead of brick and freestone it was decided to have the building of granite. the exterior being about 90 feet in height and surrounded by a granite wall 20 feet high.

The main portal will be massive and ornate instead of the plain design submitted by Mr. Withers. Mr. Post thought that as the city was about to tear down an old landmark something ornate, attractive, or monumental should replace it.

The prison proper will be very simple but

replace it.

The prison proper will be very simple but strong, and the portal will be ornamented with a piece of statuary by St. Gandens or French.

The first floor will be devoted to the administration quarters, and above will be three floors, each with three tiers of cells six feet wide, eight feet long, and eight feet nine inches high. The cell partitions will be of chilled steel. Above the cells will be a roof garden or airing court, where the prisoners may exercise. The new building will have 786 cells, against 286 now in use.

The Board passed the plans of the Commis-dioners of Charities for the additions to Bells-rue Hospital and the Almshouse on Blackwell's island.

COMSTOCK DURS THEM IMPROPER.

Albert Martin Frank of the firm of Frank Bros., importers of novelties at 44 Ann street, was arrested yesterday afternoon on the com-

given away with cigarettes, the lower half of which are confined in a bex. By holding them it a distance and running through the cigarettes are confined in a bex. water are contined in a lost. By holding them at a distance and running through the pictures rapidly a man and woman are seen to move slightly and strike one another with their hands. This effect is produced by having each picture made in a little different posture, and the rapidity with which each passes the eye causes the optical illusion.

of the legs of the iron bedstead nearest the wait had been wrenched off. It was found concealed in the straw of the mattress. This morning Sheriff Wyckoff and Deputy Sheriff Barcalow made a further search of the cell, and Iound in a crevice over the cell door a short steel blade shaped into a key. It was found that the steel readily unlocked the cell door from the inside. It was Clawson's purpose to unlock the cell door and use the iron which he had hid in the mat-tress upon the keeper.

and use the iron which he had hid in the matters upon the keeper.

A petition circulated by Clawson's lawyers has been signed by some of the foremost citigens of Somerset county. It entreats the Court of Pardons for mercy for the box murderer, who has been pronounced an imbecile by three finantity experts for the defence. Three experts for the prosecution say that he is of sound mind.

POOR JIM STEWART.

Amaza Thornton Got His Last Cent and Hasn't Gives Any Back. The examination in supplementary proceed-

ings of James L. Stewart, State Inspector of Gas Meters, against whom a judgment for \$550.00 was obtained about two years ago by Howell C. Rees, was resumed yesterday by Attorney E. M. Wight in the City Hall. The defendant said he owned no real estate and no jewelry, except one gold ring which he wore on the third finger of his right hand.

Concerning an account at the Fifth Avenue Na-tional Hank, he said it was exhausted by a check tional Hank, he said it was exhausted by acheck drawn on the 21st or 22d of last month for \$220, which he gave to Amasa Thornton. Two checks were drawn on the account payable to Mr. Thornton, said the defendant, the first one calling for \$250. Mr. Thornton returned that check with the statement that there was but \$220 in Mr. Stewart's account. The \$220 check was then made out, and the defendant accompanied Mr. Thornton to the bank when the money was drawn.

drawn.

Defendant said the \$220 was for money borrowed. The defendant could not remember
when or where the money was borrowed, but
thought he had owed \$100 of it about a year
and a nelf and \$100 about a year.

Defendant said he had handled the Republican campaign fund in the Twentieth Assembly
district, there being no Treasurer of the district
club. Mr. Thornton had not returned any of
the \$220 to him.

Sheriff Gunderman Loses Three Pingers by the Explosion of a Cannon Cracker.

MIDDLETOWN, N. Y., Nov. 5. - Sheriff Peter S. Gunderman of Sussex county, N. J., met with a serious accident at a political demonstration in serious accident at a political demonstration in Newton, N. J., on Tuesday night. Boys were using cannon frecrackers and one feli in a group in which Sheriff Gunderman was standing. He picked up the cracker, which was smoking at the fuse, with the intention of throwing it where it could do no harm. It exploded and almost tore his left hand to places. Three fingers were amputated and the palm is badly lacerated.

The Globe Theatre, St. Louis, Burned, Sr. Louis, Nov. 5. The Globe Theatre, between Walnut and Elm streets, on Seventh street, was burned about 3 o'clock this morning. The flames were discovered back of the stage about 2:45 o'clock. Forty persons were in the building. Fire spread rapidly, but all the occupants escaped, though with difficulty. William Gray, the stage manager, jumped from the third-story window and sustained fatal injuries. The Garner Hotel caught fire in the rear and was damaged considerably. The loss on the theatre building is \$15,000.

PITTSHURGH, Nov. 5. - James Conpers, 21 years of age, died this morning from the effects of of age, died this morning from the should injuries received last haturday night in a riot between members of rival marching clubs. Conners was struck on the head with a stone, fracturing his skill. Twenty-two persons were arrested for the riot. The stone-thrower is not

\$14 OVERCOATS Silk, Cassimere for \$9

These are the real Llama Thibet Overcoats. A flag of it landto Australia went from Eng-

and back at the mast head of a ship without fadingaparticle. The beautiful silk linings 1 make the Over-

coats very at-tractive. The strong, thick cassimere linings make them

warm and comfortable. Never sold for less than Fourteen dollars before. We are selling this lot for \$9.

LONG ISLAND DEER HUNTERS. Plenty Sport and Many Fine Buck Killed

The deleful reports of the Long Island deer hunters, which filtered through the woods into the villages on Wednesday, were not borne out yesterday by the results. There was prime sport for nearly all who went out, and venison is likely to become a drug on the market be-fore the season ends. In Islip, Patchogue, Sayville. Oakdale. Bayport, and Brentwood over sixty deer have been seen, and it is not improbable that the day's shooting will have resulted in the killing of over 100 deer. Never the history of Long Island hunting have

the deer been so large. Ned Wright brought a 195-pound buck into Patchogue on Wednesday morning. It was hung up in front of the butcher shop, and attracted almost as much attention as a circus.

John M. Dale of the Brooklyn Bicycle Club went out early in the morning with fifteen men of Patchogue and returned in the evenamination some time during next week.

The so-called improper pictures consist of little 10-cent kinetoscopes now being sold on the streets. The "kinetoscopes" consist of probably half a bundred pictures, about the size of those given away with cigarettes, the lower half of which are configurable. ing with an antiered buck that weighed a bit over 200 pounds. The party had three other

rapidly a man and woman are seen to move sightly and strike one another with their hands. This effect is produced by having each picture made in a little different rosture, and the rapidity with which each passes the eye causes the optical litusion. The product of the control of the control

Bayport turned out many hunters. Fifty deer were killed, it is said, around the town, of which seven were killed by Havport men. John Tleman and a party got five fine bucks. It will be several days before it can be learned how many wounded deer fied to the preserves to die. Wilmont Clinton of Sayville nearly lost his buck, and was arrested. He was going over the plains just outside of C. R. Roberts's property when a big buck care crashing through the brush. As it passed Overton fired. The tuck kept on running, and entered Mr. Roberts's property followed by Overton. The buck ran about a hundred yards and dropped dead. Overton started to drag the carcaes out of bounds when one of Mr. Roberts's gamekeepers appeared and arrested Overton. According to the rules governing shooting on Long Island, if a wounded deer gets into respricted land the hunter cannot follow, and the deer goes to the gameke per or the owner of the property. In the preserves of the South Side Sportsmen's Club many dead deer will be found as this has always been a refuge for the pursued animals. It lies in the very centre of the deer country.

Early on Wednesday thorning a big buck, pursued by a party of hunters, rushed into a partly excavated cellar. The men at work there tackled the buck, and, after a sharp struggle, succeeded in capturing it. uck. Bayport turned out many hunters. Fifty

MARIE HERMAN ARRESTED.

Parkhurst Agents Fall to Prove the Truth of Her Stater's Tip. Upon warrants procured by Superintendent Herman of 130 Macdougal street, her daughter. Erms Envante, who keeps a cigar store at 141 West Third street, and Julia La France of 132

Macdongal street, were arrested yesterday by Detectives Waldridge and Shott of the Court squad and arraigned in Jefferson Market Court. Mrs. Herman was charged with maintaining a disorderly house. Julia La France with being an inmate of the house, and Mrs. Envante with violating the liquor law.

Mrs. Herman is a sister of Matilida Herman of Levow fame. A feud of long standing exists between the sisters, and it is said that the latter gave a tip on which the Parkburst officers got evidence on which to base the warrants.

When the case came before Magistrate Mott he decided that one inmate did not constitute a disorderly house. Mrs. La France also declared that she was in no way connected with Mrs. Herman. Both she and Mrs. Herman were discharged. Detectives Waldridge and Sinott of the Court

Herman, house so the charged.

A bottle of brandy was produced with endence that it was bought from Mrs. Envante, so she was committed in \$1,000 ball for violating the excise law.

Mayor Wurster and Comptroller Palmer of Brooklyn yesterday opened bids for the purchase of \$2,113,000 of registered 3½ per cent.
gold bonds and stock of the city. The aggregate of the bids was \$2,816,000, and the premiums offered were very small. Some of the
bids were at par, and the highest price offered
was 101,10 for water extension stock. The
awards will be made to-day.
